

CPPA™ Certification

Classroom: \$550 1 day (added to the 2 day P&PA course)

Individuals are eligible to obtain CPPA™ certification upon completion of the 2 day P&PA course. The price includes an examination fee. Following the exam, the day will be handled as a workshop. The instructor will serve as facilitator and mentor.

CPPA™ (Certification in Program & Project Assessment) is an excellent way to differentiate your self from the rest of the crowd. It recognizes that you have the knowledge, training, and experience to measure, assess, and improve project delivery performance using processes, techniques, and best practices representing multiple project management and assessment frameworks.

CPPA™ certification is intended to complement the PMP® and PRINCE2® certifications.

CPPA™ requirements:

- Complete the two day P&PA course
- Pass the CPPA™ Exam. The exam is given at the beginning of the third day and is based on the information provided during the two (2) day P&PA course
- Prepare an Assessment Management Plan (AMP). The AMP is prepared as part of the workshop and documents your intended use of assessment life cycles and milestones, basis of assessment (BOA), balanced scorecard, assessment outcomes, and rating methodology

A CPPA™ Exam fee of \$150 is included in the price of the certification course.

CPPA™ is a ProjectRx certification and is not affiliated with the Project Management Institute, Inc.

Limited Time Offer

Become a member of the P&PA Group and qualify for CPPA™ Certification at no additional cost when you register for the two day Program & Project Assessment (P&PA) course – a \$550 savings!

CPPA™ requirements are completion of Day 1 & 2 (P&PA training), and Day 3 (CPPA™ certification) consisting of the CPPA™ Exam and preparation of an Assessment Management Plan (AMP).

This offer cannot be combined with any other discounts. Offer expires 09/30/12.
